LLC**

<https://firstcallpd.com/>

Want to control your security system, lighting, thermostats, locks—even view live video—whether you’re at home or away? Smart Home control functionality is at your fingertips.

Have outdoor long distance detached buildings that need surveillance? Look no further, First Call has wireless transmitter and receiver that can solve your problem!

Why First Call?

First Call Security offers a customized approach designed to fit your needs for home and business security systems. First Call uses the latest in surveillance security cameras, home automation and access control, commercial security cameras, and industrial applications.

Theft and vandalism cost businesses millions of dollars each year. We use only the highest quality equipment from the most reliable manufacturers.
