Work with One of Melbourne's Trusted Commercial Building Companies

MISR Residential & Commercial Construction prides itself on being among Melbourne's strongest commercial building companies. We have been in the industry for over 30 years and can handle any building project from start to finish. After all, we have built a solid reputation as the construction company you can trust to deliver your dream project the way you envisioned. We're the ones to call should you wish to expand your business operations with a new warehouse or construct a new office space.

We have also been proud members of the Master Builders Association and Housing Industry Association for 30 years. That serves as proof that we are certified to handle your building project. Besides commercial projects, we can also bring your dream home to life. No matter the project, though, we always use a collaborative approach where we involve you in the construction process to ensure we include everything you want.

The Services of the Best Melbourne Commercial Building Company

As one of Melbourne's reputable commercial building companies, we offer various building services and can handle a project of any size and style. And we understand that you want a custom design that suits your requirements. That's why we offer personalised services, after all. To top it all off, our team offers exceptional provisions for organising, managing, and executing construction works from ground zero. We will manage your entire project until you get the occupancy permit and receive the keys.

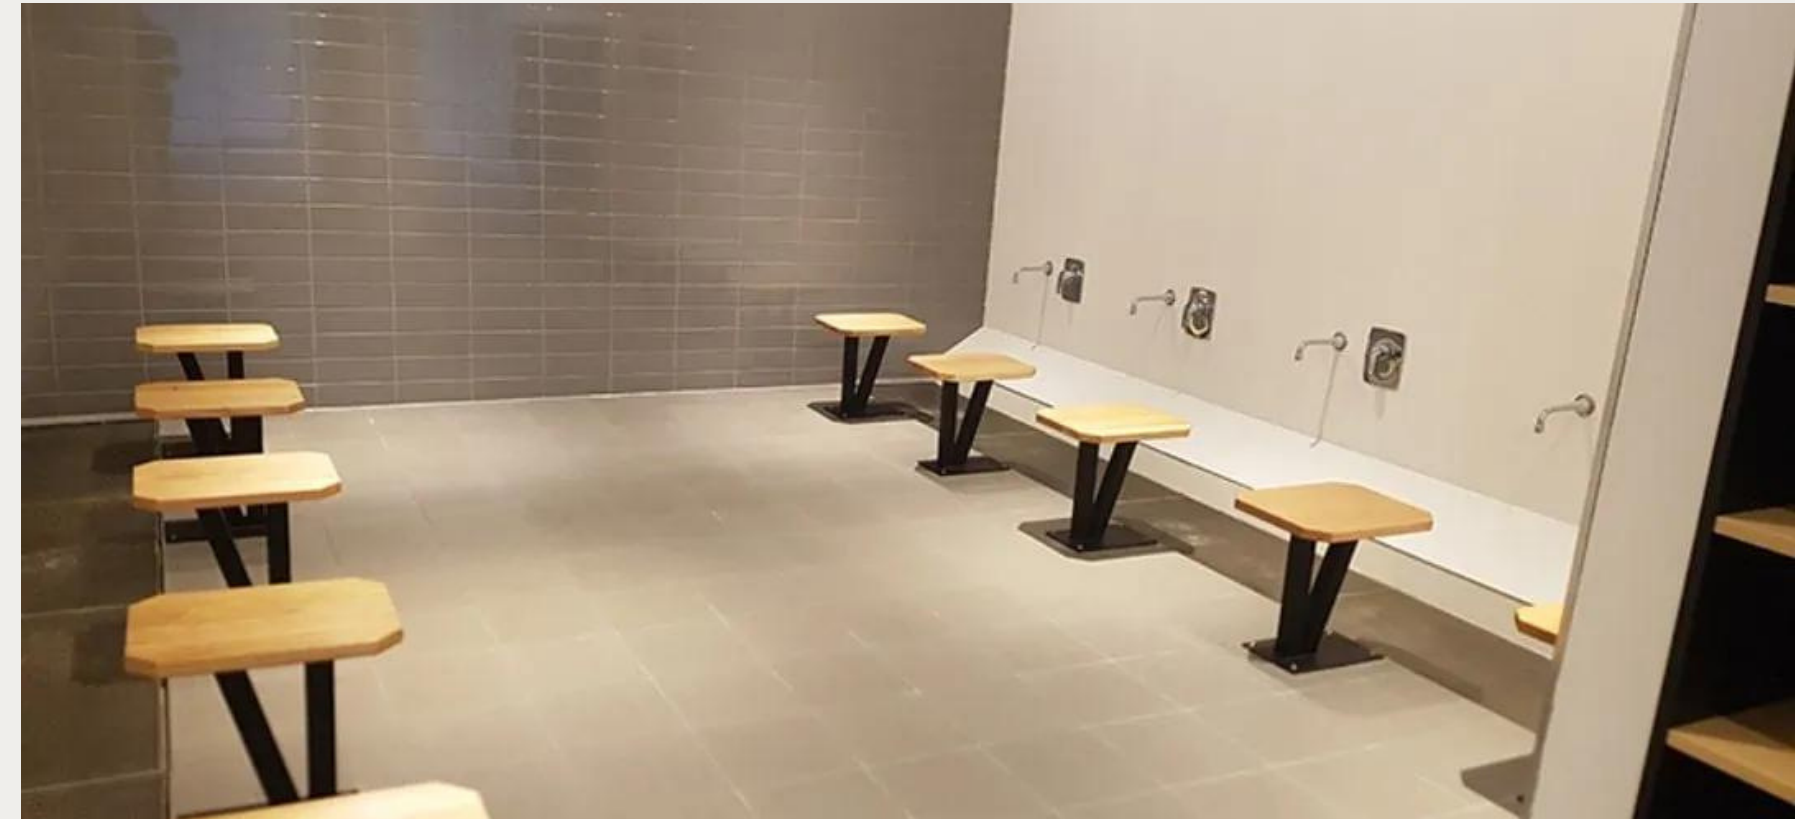

We strive to uphold a thorough transparency level with clients. That's why we commit ourselves to meeting your expectations of getting a finished project congruent with what you envisioned before commencing the work. As a result, we've achieved tremendous results across varying project scales, some of which include:

- Two-story hall and library for the Australian Academy
- Children's Centre in Selandra Rise
- Place of the assembly building in Minaret College

What Makes Us One of Melbourne's Preferred Commercial Building Companies?

As one of Melbourne's premium commercial building companies, we focus on quality and timely project delivery. Our construction process is always the same and involves three primary components: familiarity, transparency, and efficiency. Moreover, we provide regular updates on the progress of your project and offer ongoing support even after handing over the keys. We'll also inform you of all proposed work to ensure you know what you're getting into before commencing the work.

We'll spare no effort in making sure you understand every detail and cost of your project, so you don't feel lost or surprised once it's finished. Our builders will tell you about the cost and timelines and inform you how varying options can affect the cost and build times. We can even suggest a cost-effective solution if your budget does not allow certain styles or materials.
