CHOOSE THE RIGHT AIR CONDITIONING INSTALLATION IN ADELAIDE

At Thompson Air, we offer prompt and superior **ducted air conditioning installation in Adelaide**. With over 40 years of experience, we have diligently maintained our reputation for providing top-notch products and services that stand the test of time. Our team members are not just fully licenced and qualified, we also thoughtfully work around our client's budget.

Moreover, not only do we finish a job on time and accurately, but we also extend our service through personalised after-sales support. So, whether you need maintenance checks or any advice, you can simply give us a call and we'll deliver the solutions. Aside from that, our customers trust us over others as we only supply and install products we believe in. These brands include Fujitsu and Mitsubishi.

ADVANTAGES OF DUCTED AIR CONDITIONING INSTALLATION IN ADELAIDE

While ducted air conditioning installation in Adelaide may be seen as unnecessary, more people are now realising its benefits, which include:

- Flexibility and Convenience

By opting for a ducted air conditioning installation in Adelaide, you'll experience centralised comfort. Whether you need cool air in the summer or heat in the winter, a ducted air conditioning system can work efficiently.

- Design and Technology

As specialists of ducted air conditioning units, we take pride in their trusted reliability. They are designed not to hamper aesthetics and avoid noise distraction. It also has innovative systems such as automatic airflow adjustment that streamlines the commissioning process.

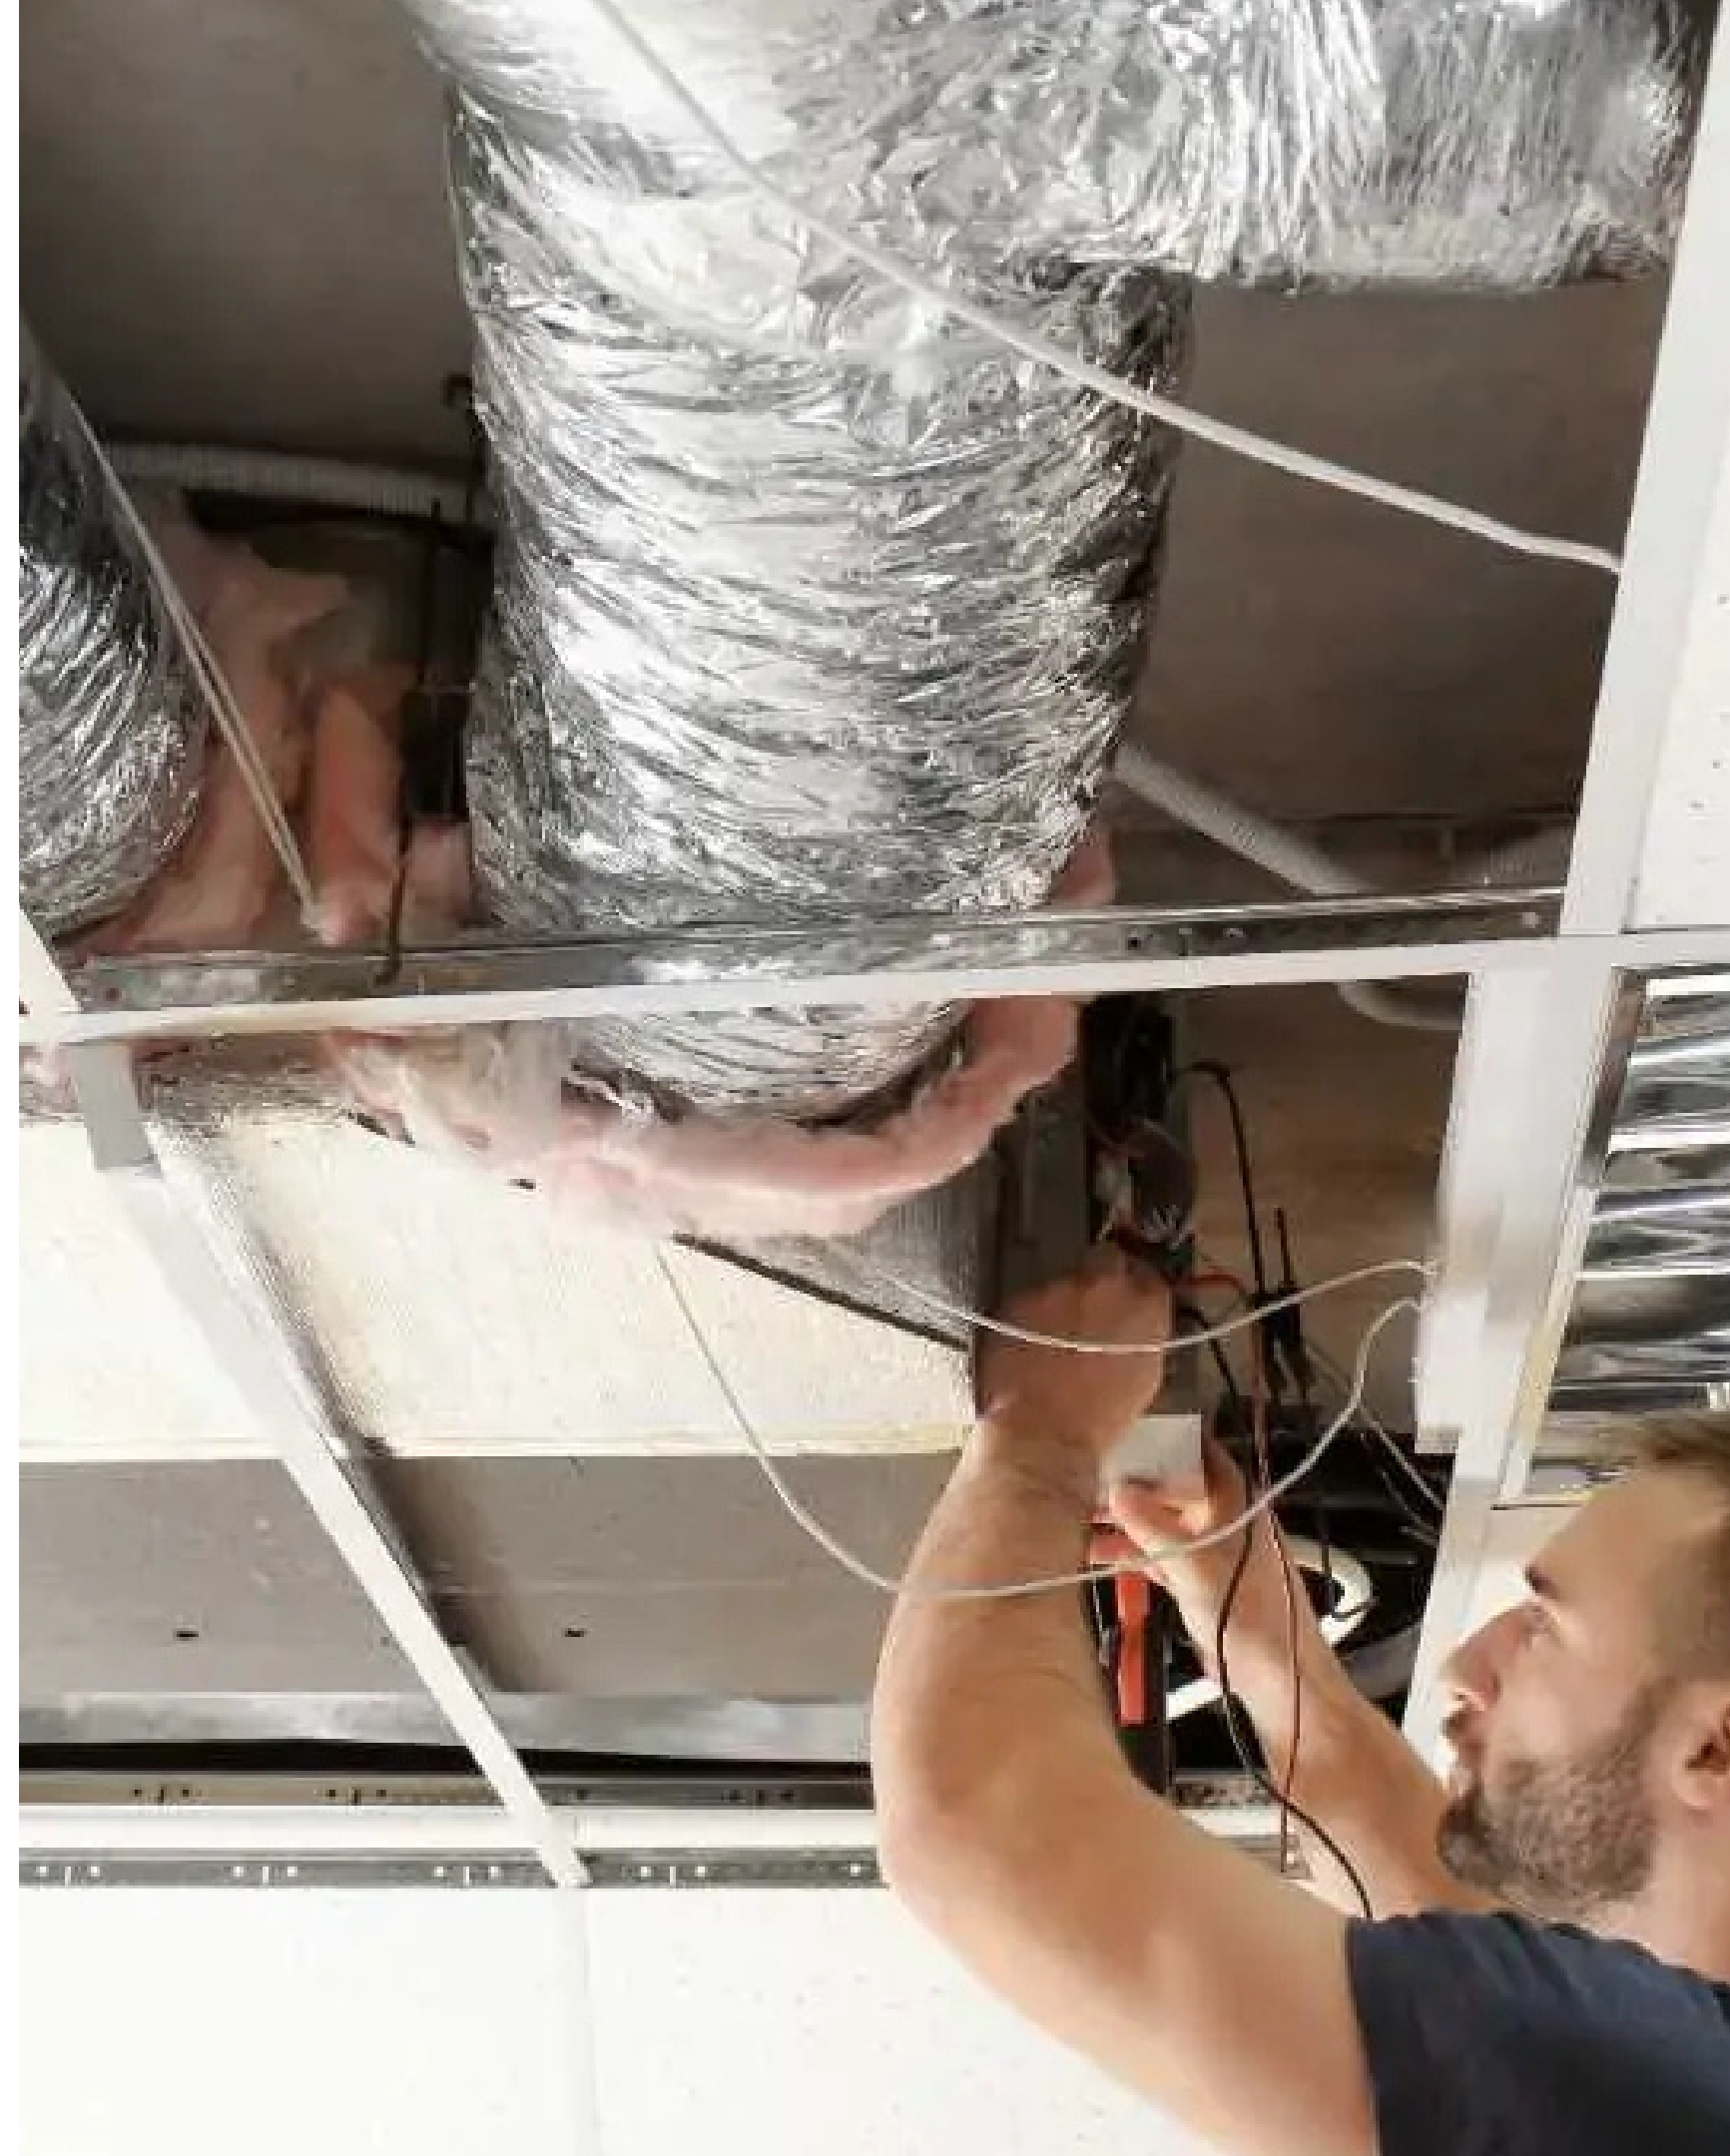

- Unrivalled Energy Performance

We take pride in working with reputable brands. With their high tech inverter system and zoning control features, they significantly decrease energy consumption. This means you can save money and reduce your carbon footprint while enjoying quality air and comfort.

UNIQUELY DESIGNED SOLUTIONS USING DUCTED AIR CONDITIONING IN ADELAIDE

Our team does not only provide quality **ducted air conditioning installation in Adelaide**. We make sure it can last up to 20 years. To achieve this, we plan solutions according to occupiers, your floor plan, and how areas of your home or office are used. This way, despite your plans for an extension or renovation, we can design an air conditioning system that can be used straight away.

At Thompson Air, we take pride in wearing multiple hats within the business. This means we are experts in not just one area, but also knowledgeable in providing another type of service. Additionally, it has also allowed us to finish a job in no time, or in only two weeks during peak seasons. Furthermore, we also offer a no-deposit arrangement so you can take your time to decide. So, whether you're a new homeowner or improving your property, we are the company to call.
