One of the most successful charity fundraising campaigns is the Dam To Dam Loop. The Dam to Dam ran from Amsterdam to Zaandam, with at least 50,000 participants in 2017. During 10 English miles, they outwit each other.

“Right To Play” was the official charity of the [Dam to Dam loop](#). This international development organisation wanted to impart essential knowledge and skills to children in disadvantaged areas through sports and play. But they were not the only charity for which they could walk. As always, there were a large number of charities that could run for a good cause. The condition is, of course, that they have collected the required sponsorship money!
