Are you facing a problem Sign in Ancestry Account? Don't be concerned about this addition; We'll talk about Ancestry Sign In later.

## Table of Contents

☰ ↕

We are living in a world where a maximum of businesses and services are available online. And to avail of those services, we either sign up for a free or a paid account. So, there is more than one account that we deal with every day.

Once you create an account, there is always a username and a password. To remember the username and passwords for all the accounts is quite an arduous job. We tend to forget, and as correctly said, to forget is a blessing because if we do not forget things, our minds would explode with the information.

Sign in Ancestry account sometimes gives you a thorough time as well. At times, the password is wrong, or you make a type.

## Given below are the Steps to Sign in Ancestry account:-

---

- Open the internet browser on your computer (Google Chrome / Safari / Firefox)
- In the address bar at the top of your browser type ancestry.com
- You will see the “login” choice at the top right-hand side corner of the page.
- When you click on it, it gives you two boxes – one for username & the other for the password.
- Enter the username and password and click on the “eye” icon to see the password you just entered, then click on sign in.
- If the credentials are correct, you are successfully login to the Ancestry account.
- Else try to click on forgot password.
- It would ask you to enter the registered email to send a verification code.
- Login to your email to check for the same.
- Note down the code sent to you by email and put it back on the page.
- It gives you the choice to type in the new password for your account.
- Confirm the same by typing it in again.

- Once it completes, go to [ancestry.com](https://ancestry.com) again and click on the sign-in to log in to the account.
- You can successfully Sign in Ancestry account without any trouble.
