Find the perfect replacement pump to power your Cal Spa hot tub.

Heater Elements

Restore heat and comfort with our selection of durable heater elements.

Filter Cartridges

Keep your water crystal-clear with our top-quality filter cartridges.

LED Lighting

Upgrade your spa's ambiance with our energy-efficient LED lighting options.

Spa Pump Repair

1

Diagnose

Identify the root cause of your spa pump issue, whether it's a faulty impeller or worn bearings.

2

Disassemble

Carefully dismantle the pump to access the internal components in need of repair.

3

Rebuild

Replace any worn or damaged parts and reassemble the pump with precision.

Heater Elements

Durable Construction

Our heater elements are built to withstand the rigors of continuous hot tub use.

Easy Installation

Designed for a straightforward replacement process, saving you time and hassle.

Reliable Performance

Maintain consistent water temperature and optimal hot tub functionality.

Filter Cartridges

1 High-Efficiency Filtration

Our filter cartridges remove contaminants and impurities for crystal-clear water.

3 Extended Lifespan

Durable construction ensures your filter lasts through many uses.

2 Easy Maintenance

Quickly and conveniently replace your filter cartridge as recommended.

4 Guaranteed Quality

Count on our cartridges to meet or exceed Cal Spa's original specifications.

LED Lighting

Energy-Efficient

Our LED lighting options use less power to illuminate your hot tub.

Customizable Colors

Choose from a range of vibrant hues to set the perfect ambiance.

Long-Lasting

Enjoy your LED lights for years with their durable, reliable design.

Easy Installation

Our LED lights are simple to set up and integrate with your Cal Spa.

Ozonators and Sanitizers

1

Ozonation

Ozonators naturally purify your hot tub water, reducing the need for harsh chemicals.

2

Sanitization

Complementary sanitizers further enhance water quality and help maintain a healthy, hygienic spa.

3

Maximize Enjoyment

With clean, clear water, you can fully relax and unwind in your Cal Spa.

Troubleshooting Tips

| Issue | Possible Cause | Solution |
|---------------------|---------------------------|--|
| Lack of Heat | Faulty heater element | Replace heater element |
| Weak Water Flow | Clogged filter | Clean or replace filter cartridge Rebuild or replace pump |
| Spa Pump Failure | Worn bearings or impeller | Check and adjust chemical levels |
| Water Discoloration | Inadequate sanitization | |
