# OUR SERVICES

# MEP CONTRACTING COMPANIES IN ABU DHABI

The three fundamental systems necessary to operate a building effectively are called Mechanical, Electrical, and Plumbing which are condensed into the MEP acronym. Buildings function smoothly with smooth operation through the essential work of MEP contracting companies which provide complete services for system designing and installation and maintenance. G3 Facilities Management delivers customized advanced MEP contracting solutions for various industries through our specialized services. Through experienced teams and dedicated focus on quality we meet the most stringent requirements of the industry for all project execution.
