PROFESSIONAL PAINTER, RESIDENTIAL AND COMMERCIAL PAINTING CONTRACTORS

You've probably guessed by our name that Javier's Painting and Handyman's Services first started with commercial painting and residential painting. We are proud of the professional painting services and the satisfaction we bring to customers with our professionalism and attention to detail. Our other services, including bathroom remodeling and renovations, started when satisfied customers asked us if we were available for other home remodeling services. We decided to take advantage of the skills we had and the available referrals we received. Now we have expanded our services for interior remodeling and include handyman services.

READY TO UPDATE YOUR HOME? ADD MORE SPACE?

Change the flow of your living areas? Let's get together and talk about the possibilities. And, while we are at it, let's talk about your outside living area. Ready for new windows or a new patio? How about a pergola to give you a respite from the hot sun as well as the start of an outside room to extend your living space. We can work together on a number of different projects.

TIRED OF THE OLD LOOK?

Kitchen remodeling and bathroom renovations typically include a number of different craftsmen on the job. Bathroom or kitchen cabinets, tiling, countertops, plumbing, electrical, flooring and more are all needed to renovate and update your kitchen or bathroom. This is why most general contractors will have to subcontract these jobs to different workmen and then you're at the mercy of their scheduling. However, Javier's Painting and Handyman Services has all these different craftsmen as part of the family business – No subcontracting! This means your project is overseen by one foreman and all trades are done by craftsmen that are part of the team.
