Competency Report Writing Helper

What is?

CDR for Electrical Engineers

(Anzsco: 233311)

About Us

CDRAustralia.Org is an online consulting service that primarily helps Electrical Engineers (ANZSCO: 233311) and other engineers prepare their Competency Demonstration Report (CDR) for the Migration Skills Assessment by Engineers Australia (EA).

The CDR is a crucial technical report required for engineers with non-accredited qualifications who wish to immigrate to Australia for skilled employment.

What is CDR for Electrical Engineers?

A CDR for Electrical Engineers (ANZSCO: 233311) is a mandatory document for applicants seeking Australian immigration without holding a recognised Australian qualification.

A CDR report helps them display their engineering qualification and work experience in the respective discipline and prove their eligibility for the nominated occupational category.

A CDR is required to undergo a migration skills assessment through which applicants can immigrate to Australia for job opportunities and permanent residency.

How to Prepare?

A CDR for Electrical Engineers

Nominate Occupational Category
Select three Engineering Projects
Prepare three Career Episodes
Craft a Summary Statement
List a CPD Statement

Occupational Category for Electrical Engineers:

**Professional Engineer
Engineering Associate
Engineering Manager
Engineering Technologist**

Why Craft and Submit? A CDR for Electrical Engineers

- To display Acquired Education**
- To showcase Attained Experience**
- To exhibit eligibility for the Nominated Occupation**
- To undergo Skill Assessment**
- To achieve a Migration Visa**
- To get an Australian PR**

Format a CDR for Electrical Engineers:

A CDR for Electrical Engineers contains three key elements:

- 1. Three Career Episodes: Each episode must contain a format including four sections, such as introduction, background, personal engineering activity, and summary.**
- 2. A Summary Statement: Choose a proper template based on the nominated occupational category to frame a valid summary statement.**
- 3. A CPD: list all CPD statements in a tabular format, including title, date, duration, venue, and organiser of the training and event.**

What is the Engineers Australia Skills Assessment?

Engineers Australia Skills Assessment is a procedure to select the most suitable candidates for each nominated occupation by evaluating their CDR-based competence and experience:

**It provides an Opportunity for Skilled Immigration.
It allows Candidates to migrate to Australia.
It determines Individuals Immigration.**

Why Seek Australian Immigration?

For Job Opportunities in Australia

For Career Growth

For Australian PR

For Work-life Balance

For a Decent Lifestyle
