WHAT IS?

KA02 ASSESSMENT

IN NEW ZEALAND

 <https://ka02assessment.co.nz/>

ABOUT KA02ASSESSMENT.CO.NZ

KA02Assessment.Co.NZ is a specialized consultancy dedicated to helping engineers secure New Zealand Skilled Migration.

We provide expert guidance on drafting Knowledge Assessment (KA02) reports for Engineering New Zealand, ensuring applicants demonstrate technical competency aligned with Washington Accord standards. Our services focus on maximizing the chances of approval for non-accredited qualification holders.

WHAT IS THE KA02 ASSESSMENT IN NEW ZEALAND?

A KA02 Assessment is an engineering report, produced by aspiring engineers without having a Washington Accord-accredited qualification for knowledge assessment.

They use this technical report to demonstrate they have the level of technical knowledge and understanding through work and learning that is equivalent to that of a graduate of a Washington Accord-accredited qualification.

The prime purpose of writing and submitting this report is to achieve skilled immigration or become a chartered professional engineer in New Zealand.

WHO NEEDS A KAO2 ASSESSMENT?

NON-ACCREDITED QUALIFICATIONS

Your engineering degree is from a country or university not recognized by the Washington Accord.

IMMIGRATION SEEKERS

You are applying for a Skilled Migrant Category visa and need to prove your technical skills to Immigration New Zealand.

PROFESSIONAL REGISTRATION

You are seeking to become a Chartered Professional Engineer (CPEng) or an Engineering Technologist in New Zealand.
