

# Minerals & Chemicals – Overview

From Jayesh Group

# Jayesh Industries Limited (Since 1967)

- Engaged in Manufacturing, Trading, Imports & Exports of Ferro Alloys, Metals, Minerals, Chemicals, Steel Strips
- These products are important Raw materials for industries like Welding Electrode, Flux Cored Wire, Wear Plates, Powder Metallurgy, Hard Metal, Diamond Tools, Special Alloys, Aerospace, Colour Ceramics and Steel Plants

# Our Strengths

- Over 55 years of Excellence in Business
- Head Quartered in Mumbai, the Business Capital of India
- State-of-the-art Manufacturing facility located at Tambati, Khopoli
- Warehouses at strategic locations in Bhiwandi (Maharashtra) and Chennai
- Raw Material sourced from the leading producers across the globe
- In house test laboratory to ensure that all products comply to the international quality standards

# Our USPs

Head Office  
Chembur, Mumbai

Manufacturing Unit  
Tambati, Khopoli

Warehouse 1  
Bhiwandi, Maharashtra

Warehouse 2  
Chennai, Tamilnadu

**400 +**

Domestic Customers

**100 +**

Export Customers

**40 +**

Countries we serve

**56 +**

Years in Industry

*Jayesh Group is EEPCL Awards winner for the 9 consecutive years*

# Minerals & Chemicals – Key Applications

- Fluorspar (Coarse & Fine): Welding electrodes, fluxes & steel refining
- Barium Carbonate: Ceramics, glass & metallurgical processing
- Boron Carbide: Abrasive tools, wear-resistant & refractory parts
- Cellulose FDY 600: Welding electrode binding & coating stability
- Sodium Cryolite (Synthetic): Aluminium processing & electrode coatings

# Minerals & Chemicals – Key Applications

- Natural Graphite Powder: Foundry lubrication & carbon enhancement
- Alginates (Sodium / Calcium / Potassium): Binding agents for electrodes & industrial formulations
- Titanates (Sodium / Potassium / Silico): Heat-resistant fillers, welding & friction materials
- Rutile Sand & Calcined Rutile: Welding electrodes, fluxes & pigments
- Calcined Mica: Electrical insulation & thermal resistance

# Key Industrial Minerals & Chemicals

**Acid Grade Fluorspar (Coarse)**

**Acid Grade Fluorspar (Fine)**

**Barium Carbonate**

**Boron Carbide**

**Cellulose FDY 600**

**Sodium Cryolite (Synthetic)**

# We export to over 40 countries worldwide

# Thank You
